SUMMARY

Experienced Power Platform Developer and Consultant with a focus on streamlining processes and driving efficiency. Trained in full stack development and adept at translating client needs into high-quality solutions on-time and within budget. Passionate about continuous learning and staying updated on industry trends.

TECHNICAL SKILLS

Power Apps, Power Automate, Power BI, Copilot Studio, .Net, C#, SQL Server Management Studio, DevOps, HTML, CSS, JavaScript, Node, Express, React, SQL, MongoDB, MySQL, Agile Methodology

PROJECTS

Cert Tracker | Power Platform initiative aimed at aligning employees' Microsoft certifications with team objectives. Consisting of a user-friendly Canvas App enabling seamless certification updates by employees, coupled with a Model-Driven app allowing managers to assign and modify team goals, and a comprehensive Power BI dashboard for streamlined progress tracking.

- Constructed custom connector triggered by a Flow to gather up-to-date Microsoft certificate data
- Developed a dynamic Power Automate Flow to extract up-to-date lists of active team members from Microsoft Entra ID, streamlining team management processes with real-time data accessibility
- Created data models within Dataverse to tie certificates to employee achievements to manage via model-driven app for management and assignment of goals by leadership across teams
- Designed an intuitive Canvas App enabling seamless data entry for employee certifications and proactive tracking of management-set deadlines
- Built a comprehensive Power BI dashboard to monitor and analyze progress towards organizational goals

Form Analyzer| Power App utilizing AI Builder to extract data from invoices, generate comprehensive summaries and tables of analyzed data, and facilitate natural language querying through ChatGPT connectivity. Additionally, provided users with the option to utilize Copilot Studio chat for enhanced interaction.

- Constructed Power Automate Flows to handle responses from ChatGPT analysis and present to UI as table data and paragraph summary
- Utilized Power Platform AI Builder image processing to extract data from uploaded invoices
- Collaborated with Design team to develop intuitive user interface

Payroll Integration for Major Utility Company | Integration of Oracle HCM, ADP, and organization's payroll middleware. .Net, C#, Azure Functions, Logic Apps, SSMS

- Played a vital role in the final stages leading to go-live, focusing on UI enhancements, middleware data processing, data modeling, and configuring logic apps

- Supported the project post go-live, addressing bug fixes, enhancing UI elements, automating data archiving processes, and monitoring the support queue
- Facilitated the creation of project documentation to effectively communicate project objectives, methodologies, and technologies

WORK EXPERIENCE

Power Apps Consultant II, Neudesic - May 2022 – April 2024
- Engaged with multiple internal innovation communities developing Power Platform solutions that resulted in client contracts
- Developed internal Power Platform solutions that helped team surpass certification attainment goals for every quarter in 2023
- Contracted with major utility company for all of 2023 assisting in payroll integration project utilizing .Net, C#, Logic Apps, and Azure Functions

Sales Development Representative, Akamai Technologies - Aug 2018 - Feb 2021
- Orchestrated multiple self-initiated and marketing-driven outreach initiatives, generating qualified sales opportunities and consistently surpassing monthly quotas
- Broadened internal sales networks and leveraged previously untapped external resources to secure new business, resulting in contracts exceeding $100k in revenue in both 2019 and 2020

Account Executive, Vonage Business - Oct 2017 - Aug 2018
- Surpassed anticipated monthly revenue targets, consistently achieving a minimum personal goal of $5,000, exceeding the expected $3,750 per month
- Recognized for repeatedly generating the highest revenue

Sales Development Representative, Vonage Business - July 2017 - Oct 2017
- Achieve above-average lead-to-opportunity conversion rate maintaining above 50% every month
- Swiftly promoted from qualifying prospects to closing sales opportunities and driving revenue
